Senator Ron Alting’s 2022 Legislation

Concurrent Resolution

- Acknowledges the problem of climate change.
- Puts Purdue University’s scientific research on the record.
- Addresses the economic development Indiana can attain through sustainability.
- Endorses the framework of providing farmers with opportunities to voluntarily participate in climate action.
- Proclaims that we must protect workers and their communities in the energy transition.
Senator Ron Alting’s 2022 Legislation

Senate Bill

- Brings stakeholders and experts to the table, including climate researchers, an expert in environmental justice, representatives of key industries, a representative of labor unions, and a youth climate activist.

- Requires the task force to create a “climate action plan” with policy recommendations for climate action, environmental justice, and sustainable economic development.
We Need Your Help!

We are building a coalition of organizations and business that support our climate legislation.

Your organization/business can endorse our legislation at tinyurl.com/ClimateCoalitionForm
Thank you for your time!
